

# ASH PROCESSOR

WITH VENTILATED WORKSTATION

The Addfield Cremations ash processor, complete with cabinet and vacuum system is a reliable and robust solution to match the requirements of modern crematoria, in compliance with the most advanced standards in cremated remains treatment.

The complete ash processor is a simple-to-use, fully automatic system engineered to ensure the direct and hygienic transfer of cremated remains from the ash pan into the urn without intermediate handling.

Operating on a 15-20 minute timed cycle, staff can perform other duties during the process, improving efficiency.

## KEY FEATURES

- 15-20 minute cycle time.
- Soundproof panels to reduce noise.
- Rotating ball system to break down the cremation remains.
- Integrated desk to easily transfer and prepare urns.
- Three phase electrical power.
- kW 1.1 power of the processor.
- Magnetic wand included
- 470kg in weight for full cabinet and vacuum unit

## DIMENSIONS

730mm (W) x 1300mm (L)  
x 1700mm (H)
