

## AUTOMATIC CHARGE BIERS

YOUR EVERYDAY CHOICE

The automatic cremator charger is the perfect standard option for loading coffins in the Aurora Cremator.

The total weight limit of the automatic trolley is 65st\* and has been specially designed for daily use.

The Addfield Cremations automatic cremation charger is a professional accessory, perfect for any cremation business. The equipment is simple to use and has the ability to withstand continual heavy use. Constructed from 40mm heavy duty welded steel and metallic powder coated paint finish with anti-bacterial additive.

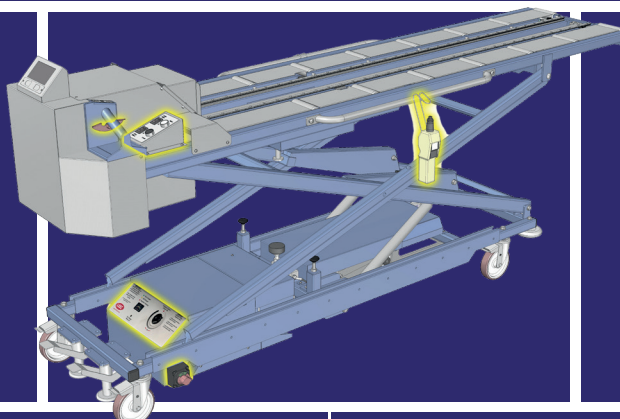

### KEY FEATURES

- Powered charging system for smooth reliable operation.
- Motorised drive with central retractable drive wheel for effortless manoeuvrability.
- Heavy duty, battery operated hydraulic lift built to perform shift after shift.
- Impressive 65 stone weight capacity.
- Versatile lift range of 600mm to 1930mm.

\*We recommend that any total weights over 45st be considered as a two-person operation and be prepared to manually assist the charger in the event that the condition of the coffin type or cremator bed may prevent fully automatic loading. We also strongly recommend carrying out a risk assessment to assess the suitability of the coffin and condition of cremator bed prior to using the charger for weights that exceed 45st.

### DIMENSIONS

715mm (W) x 2750mm (L)  
x 600-1930mm (H)
